We are proud of our track record in spotting and nurturing talent. Our ambition is to make sure every individual has the opportunity to maximize their potential and their careers with SEGRO.

### What are we looking for?

We are currently looking to appoint an Associate Director, Data Products to ensure that data products are developed efficiently, of high quality, aligned with business need, and deliver value to SEGRO.

The role's principal accountabilities will be in:

- To manage all Data Products delivery work, including overseeing and guiding product management and analysis, technical delivery and operations, and associate general management activities.
- To ensure products are aligned to business needs, deliver value, are of high technical standard, operate effectively, and represent good value.
- To manage and continuously improve the Data Products team, consisting of at least one direct staff report, two indirect staff reports, and between five and ten resources from partner organisations.
- To ensure the team is high performing, and individuals are motivated and developed.
- To support wider data, technical product and related work, for example data strategy, the solution delivery team, and contribute to the Technical Design Authority.

### You will have...

- Experience in a data product related role, e.g., product management/ownership, data warehouse delivery, BI delivery.
- Experience in implementing and optimising product delivery team ways-of-working, generally following agile delivery approaches.

- The ability to communicate and negotiate complex data subjects with both technical and non-technical audiences.
- The ability to organise own time and tasks, to be effective at managing time across multiple concurrent activities, and to work within minimal supervision.
- Experience managing small teams of staff, contractors and/or third-party resource.
- Experience in, or an interest in developing capability in, general management activities, e.g., managing budgets; and performing other project or department management activities.
- The capability and keenness to learn new subjects, to work flexibly within a small team, and to take on responsibilities outside of core areas of experience.
- Comfortability in performing a mix of hands-on and management / coordination activities.

#### **It would also be nice for you to have...**

- Experience working with asset, customer, finance, organisational, geographic, supplier, and/or project data.
- Experience working with the Microsoft Azure technology stack.
- Working within real estate, property, investment, or related industries.
- Working with third party consultancy and/or technology delivery partners.

#### **What we offer...**

Competitive package including 30 days annual leave, private health care, pension, life assurance. As well as an annual medical check-up, a wellbeing programme, and an annual charity day of giving.

We provide excellent opportunities for training and development, supporting employees with their career ambitions. We have a range of high-quality education and training on personal and professional skills that enable our people to fulfil their potential.

All employees participate in our annual bonus scheme and have the opportunity to own a stake in the company through share schemes open to everyone.
