COMPANY PRESENTATION

SEGro

100+ Years of History

SEGro is a UK Real Estate Investment Trust and a leading owner, manager and developer of modern warehouses and light industrial property.

We have been creating spaces that enable extraordinary things to happen for over 100 years. We established in 1920 it owns or manages 10.9 million square metres of space valued at € 25.3 billion serving CUSTOMERS from a wide range of industry sectors. Its properties are located in and around major cities and at key transportation hubs in the UK and in eight other European countries.

COMPANY PRESENTATION

SEGRO

First Logistics Developer in Italy

SEGRO entered the Italian market in 2007 with the acquisition of different assets on Northern Italy.

In 2015 SEGRO acquired Vailog S.r.l., a leading Italian developer, with a track record of 1.5M sq m developed since its foundation in 2003, paving the way for SEGRO to grow scale in the development markets across Northern, Central and Southern Italy, reaching a total of 3.7M sq m logistics space developed.

SEGRO's portfolio comprises Big Box warehouses, City Logistics, and Urban warehouses with 100% occupancy rate.

MAIN ACHIEVEMENTS

OUR CUSTOMERS

2015-2018

- 81,300 sq m at Interporto Bologna (various customers)
- 46,000 sq m for Yoox in Milan South
- 28,000 sq m for Tiesse in Milan South
- 42,000 sq m for Yoox at Interporto Bologna
- 47,300 sq m for Leroy Merlin at CSG Logistics Park
- 155,000 sq m for Amazon in Rome North
- 11,000 sq m for Amazon in Turin
- 35,500 sq m for Amazon in Milan East
- 75,300 sq m for Close2You and Fiege at CSG Logistics Park

2019-2021

- 60,000 sq m at CSG Logistics Park, Rome, Verona and Bologna
- 56,000 sq m for Aldi in Milan South
- 126,000 sq m for Zalando in Verona
- 189,028 sq m for Amazon in Novara
- 49,855 sq m for Amazon in Bologna
- 6,647 sq m for Tannico at CSG Logistics Park
- 11,000 sq m for Amazon in Parma
- 8,030 sq m Due Torri at Interporto Bologna
- 17,440 sq m for Pallex at Interporto Bologna
- 49,570 sq m for GXO at CSG Logistics Park
- 21,420 sq m for MARR at CSG Logistics Park
- 11,120 sq m for One Express in Milan South
- 11,100 sq m for Logista in Rome South
- 169,285 sq m for Amazon in Rome South
- 53,957 sq m for Leroy Merlin in Rome South
- 29,430 sq m for Amazon in Treviso, Vicenza and Turin

2022-2025

- 5,800 sq m for Amazon in Milan
- 23,750 sq m for Logista and Due Torri at Interporto Bologna
- 10,140 sq m for Holyart in Reggio Emilia
- 10,800 for Tiesse at CSG Logistics Park
- 26,540 sq m for C2U at CSG Logistics Park
- 32,750 sq m for Decathlon in Naples
- 35,085 sq m for Amazon in Turin
- 30,150 sq m for Renault at CSG Logistics Park
- 22,750 sq m for SDA at CSG Logistics Park
- 20,600 sq m for Leroy Merlin in Rome
- 50,000 sq m for Unieuro in Collesferro
- 18,000 sq m for Sephora in CSG Logistics Park
- 34,000 sq m for SDA Italian Post in Naples

WHAT WE DO

To address its CUSTOMERS' needs, SEGRO offers state-of-the-art and flexible spaces, located in and around major cities and at key transportation hubs. The portfolio comprises city logistics units, urban distribution units, and modern big box warehouses.

CITY LOGISTICS

Inner city logistics is requiring the use of new spaces in the city (parking lots, railyards,...) in order to adapt alternative storage spaces and accommodate new technological solutions to distribute goods.

URBAN WAREHOUSES

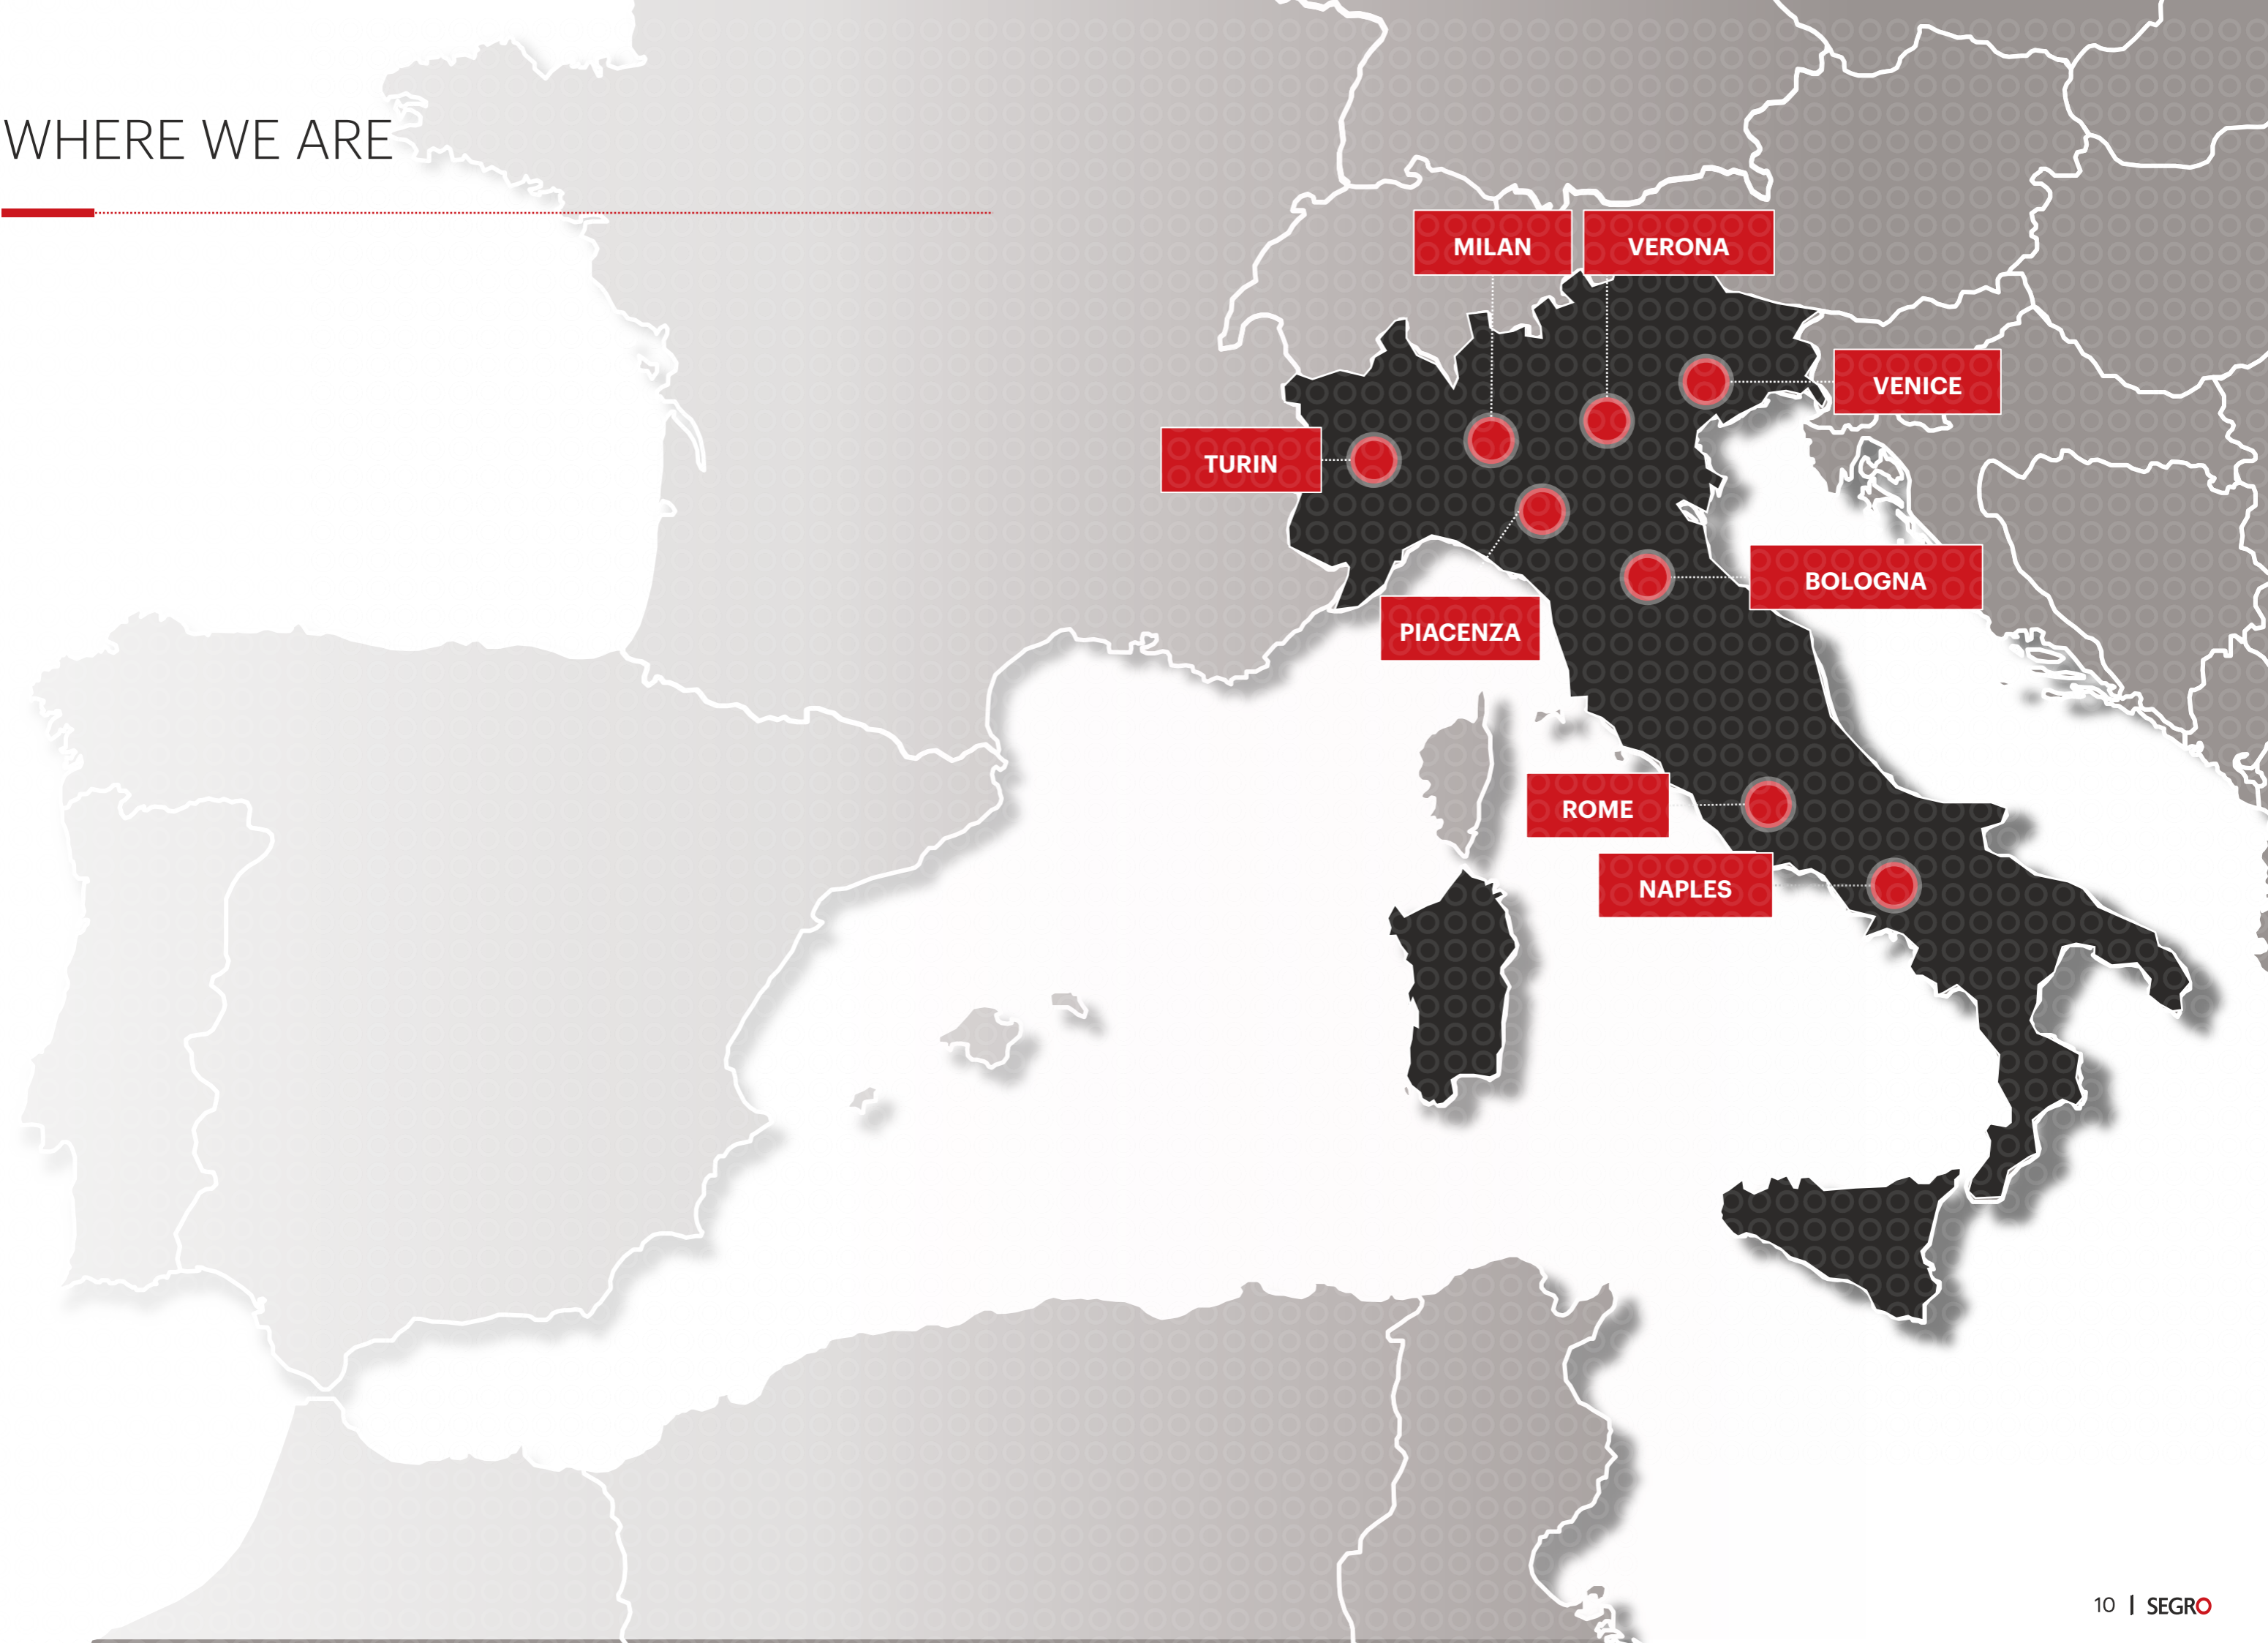

Urban warehouses are located within easy reach of population centres and business districts. They are used by a wide variety of CUSTOMERS who need rapid access to their own CUSTOMERS and to labour and are therefore close to main roads and public transport. Land supply in and around urban areas tends to be less available so urban warehouses tend to be smaller.

BIG BOX WAREHOUSES

Big box warehouses are typically used for storage and processing of goods for regional, national and international distribution. The requirement for large land plots means that they tend to be located some distance from the ultimate CUSTOMER but on major transport routes (mainly motorways, but also ports, rail freight terminals and airports) to allow rapid transit.

ENVIRONMENTAL AND SOCIAL COMMITMENT

RESPONSIBLE SEGRO

DESIGNED FOR THE FUTURE

As a developer, we understand that we are responsible for enabling growth and creating sustainable buildings which help reduce carbon emissions.

We develop high quality and sustainable assets in prime locations.

Our modern portfolio is the result of an ambitious design and construction process. We focus on every detail, from the terrain to the delivery of the asset. We pay attention to the energy used in construction. We constantly review and improve materials used throughout the entire process, to maximize energy efficiency of our buildings and to reduce embodied carbon. Our technical approach to environmental sustainability is ingrained in our commitment to creating state-of-the-art logistics spaces. With a forward-thinking mindset, we are dedicated to designing and developing properties that not only meet the needs of today but are also prepared for the challenges and opportunities of the future. At SEGRO, we are not just building warehouses; we are crafting a sustainable legacy, perfectly aligned with the evolving demands of the modern world.

RESPONSIBLE SEGRO

Our commitment to be a force for societal and environmental good is integral to our purpose and strategy.

Our responsible SEGRO framework introduces three long-term priorities to which we can make the greatest business, environmental and social contribution.

Our three priorities are:

- CHAMPIONING LOW-CARBON GROWTH
- INVESTING IN OUR LOCAL COMMUNITIES AND ENVIRONMENTS
- NURTURING TALENT

For each of these areas we have established challenging initial targets, against which we will report annually, and have set out the actions needed to achieve them. We will set additional, more specific, supporting targets as necessary and we expect our actions and approach to evolve over time to reflect our achievements, technological change and the priorities of our stakeholders and wider society.

CHAMPIONING LOW-CARBON GROWTH

Our buildings are developed with high-quality specifications, raising the bar of sustainable industrial development and low-carbon growth.

Embedding sustainability in our developments from the design phase, helps us take a full life-cycle approach. We work with partners and suppliers to find and deliver innovative, low carbon materials and techniques. This is how we will reduce the embodied carbon intensity of all new developments by at least 58% by 2034 (compared to a 2024 baseline of 318 KgCo2e/sq m).

We're stepping up our use of renewable energy across our portfolio through promoting or supplying green energy tariffs, increasing our solar generation capacity and improving energy efficiency and sustainable transport solutions. We are committed to reducing the corporate and the customer emissions intensity by at least 81% by 2034 (compared to a 2024 baseline of 36 KgCO2e).

We will become a net-zero carbon business by 2050.

SEGRO LOGISTICS PARK INTERPORTO BOLOGNA

IMPROVING BIODIVERSITY

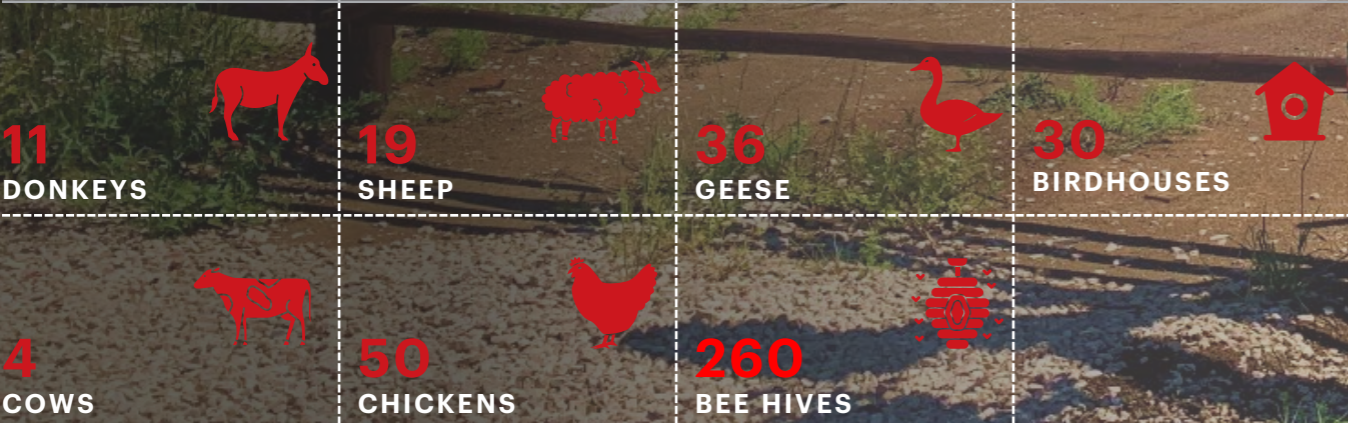

As a developer, we have a comprehensive approach to supporting biodiversity and local communities.

We carefully consider the landscape surrounding both our existing and new buildings to ensure they provide pleasant environments for people to work in, meet the needs of local communities, and positively impact local biodiversity.

We have created green spaces within our estates, including woodland areas with public walking trails around our big box parks, as well as small pocket parks and green walls.

We collaborate with small local producers that transform raw materials into finished products.

Some of our friends:

We create important spaces for our customers and for their employees. We care about people and the space that surrounds them.

Our green spaces are enriched by planting a variety of vegetation, based on the characteristics of the local environment.

In all our buildings, we design areas that can be used by our customers and their employees. These spaces are typically intended to lighten the workday and promote physical and mental well-being.

Some numbers of our green areas:

ENHANCING SUSTAINABLE CRAFTING

As a developer,
we collaborate with
communities to support
biodiversity and local
produce.

In our process, our partners transform raw materials into finished products using both traditional and innovative crafting techniques. Every step is carried out with respect for the environment, with a strong focus on local biodiversity and a commitment to a sustainable industry deeply rooted in the community.

Some of our creations:
