SUSTAINABLE BY NATURE

SEGRO Park Courier Road will deliver superior cost efficiency for customers while also benefiting the environment.

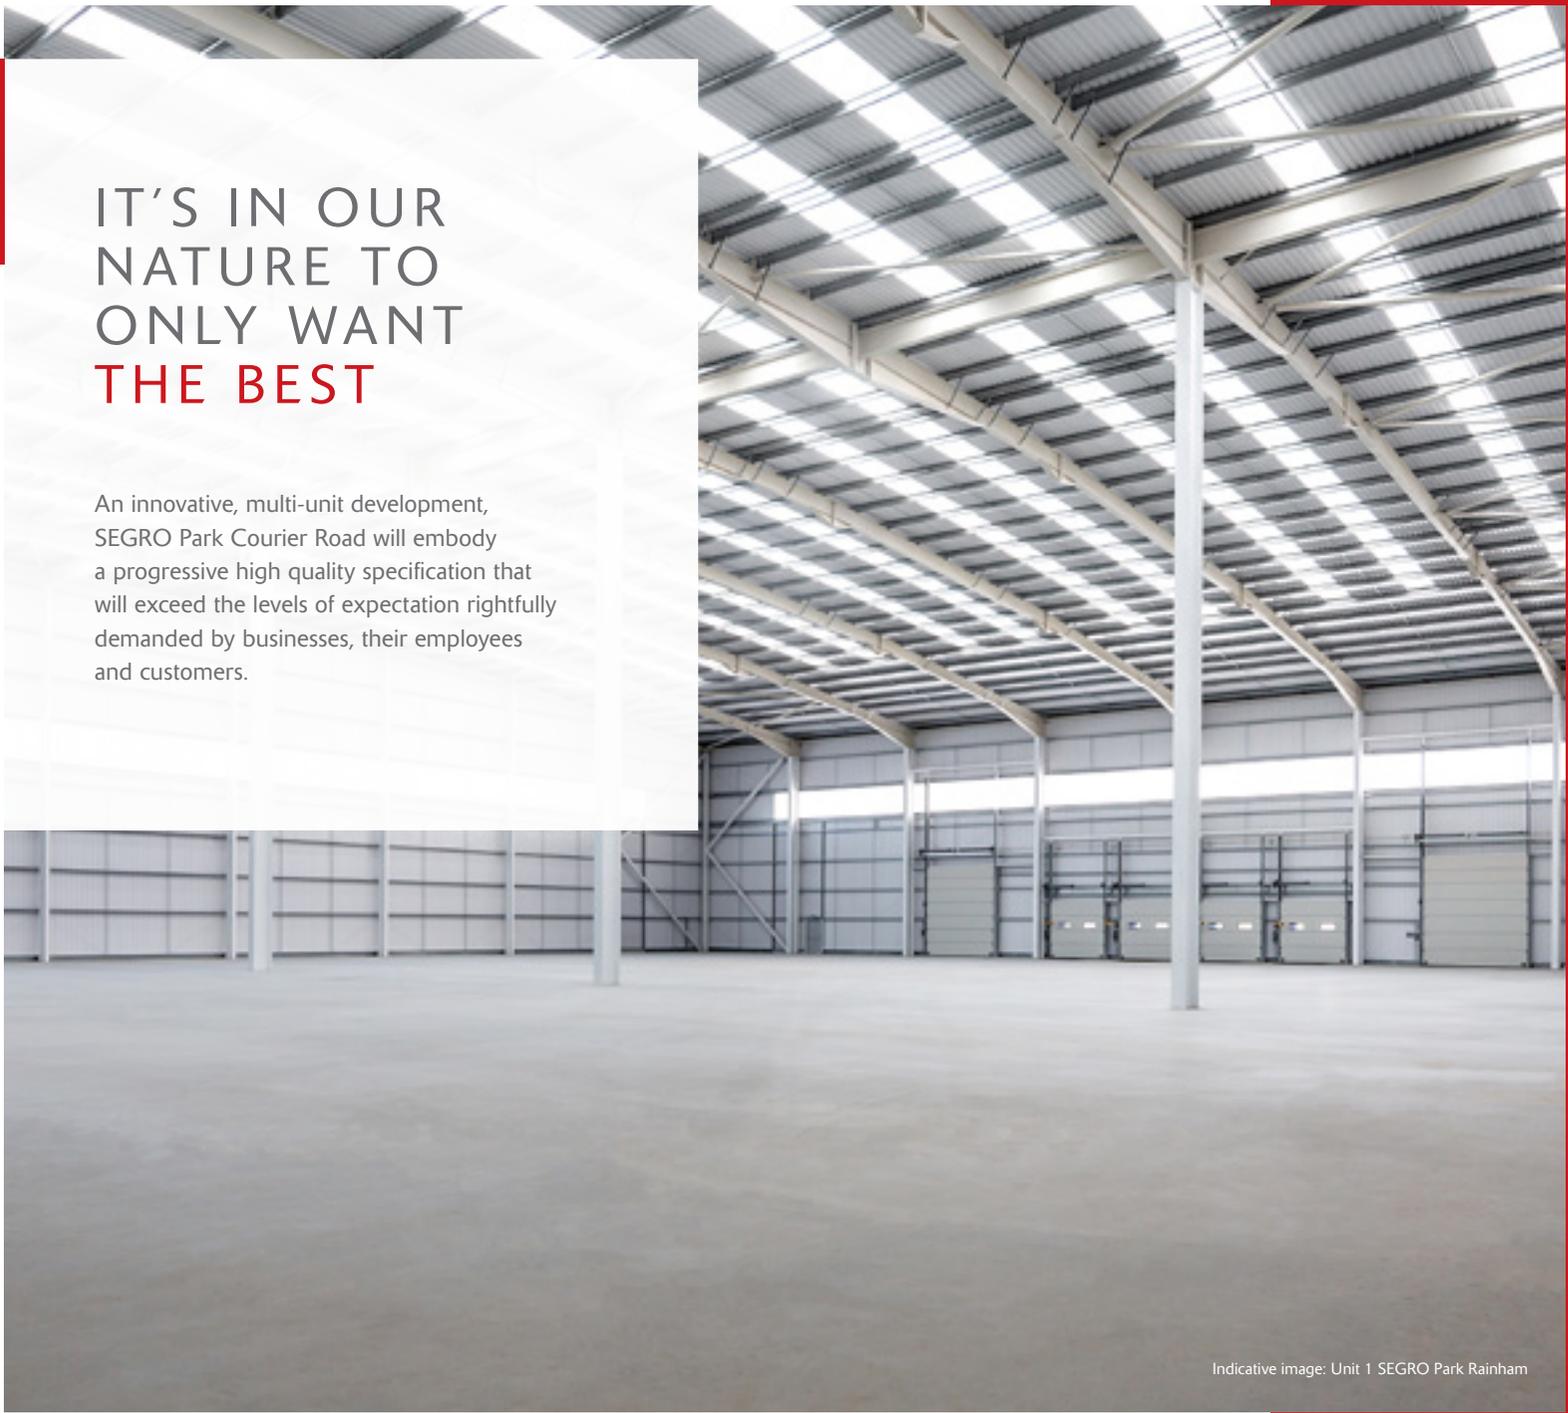

All fully carbon neutral, each unit is targeting an EPC A+ and BREEAM 'Excellent' rating by incorporating highly efficient sustainability measures designed for the long term. These include photovoltaic panels, LED lighting and electric car charging points as standard.

Further enhancements include the use of translucent wall panelling to increase internal natural daylight, plus pre-installed 'plug & play' connections for batteries that store generated electricity.

A MORE NATURAL WAY OF WORKING

SEGRO puts the health and wellness of employees at the heart of our buildings' design and construction.

This development provides enhanced office interiors, with a double height entrance, internal water feature and living walls. Outside, abundant green space has been retained to provide a footpath around the site, plus a new pond to help create a thriving natural habitat.

These features, combined with an outdoor communal gym and seating area, contribute to employees' sense of wellbeing and cement SEGRO Park Courier Road's status as a progressive, employee-focused place to work.
