* Classified Installations for Environmental Protection

INNOVATIVE, RESPONSIBLE AND SUSTAINABLE URBAN LOGISTICS HUB

*Simplify your last-mile
operations and improve
your customers' experience*

SEGRO Centre Paris Les Gobelins is ideally located in the heart of the 13th district of Paris, just 5 minutes from the ring road, offering rapid access to all Parisian districts. This prime location provides optimal connectivity close to your customers and partners.

With a low-carbon refurbishment of the former Gobelins freight station and eco-friendly delivery solutions, the site meets environmental challenges at the same time as optimising your logistics operations.

The modular spaces can be adapted to the specific needs of each company of the supply chain and cycle logistics chain, from distribution to storage.

Opt for a strategic, sustainable and flexible site, in the heart of Paris, and put your company at the centre of logistics innovation.

1

PRIME LOCATION

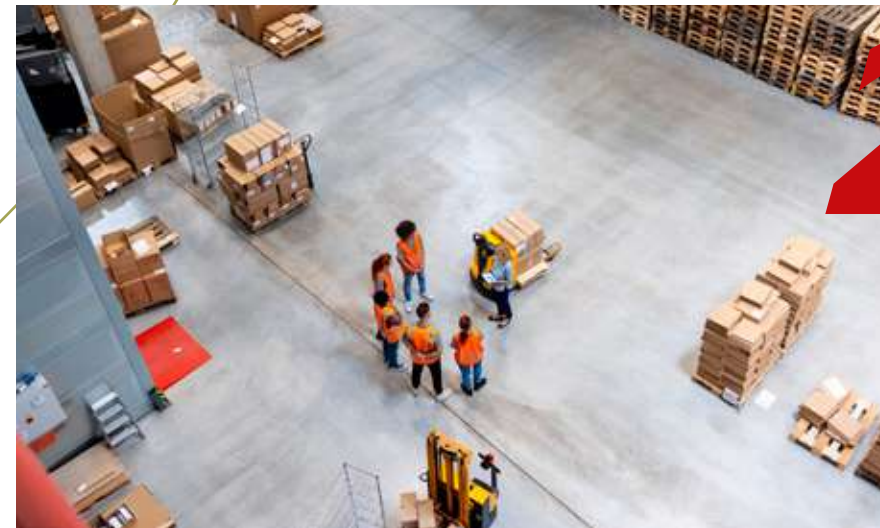

Direct access to the city center, facilitating seamless connection to emerging consumer trends.

4

COMMITTED AND RESPONSIBLE

The site complies with the Paris Low Emission Zone (LEZ) regulations and is the only urban logistics hub in Paris with ICPE authorization.

2

FLEXIBLE SPACES

Units from 700 to 14,000 sq.m.

3

FREE FLOWING TRAFFIC

Wide and comfortable, one-way traffic lanes (loops) to facilitate manoeuvring.

BIO-SOURCED
CONSTRUCTION
MATERIALS

A logistics hub for **SUSTAINABLE LOGISTICS**

This project embodies a responsible vision, with sustainability as the guiding principle at every stage.

We have chosen bio-sourced materials, low-carbon concrete, and recyclable materials to address current environmental challenges.

For greener logistics that respect Parisians and local residents, electric charging stations will be installed, and lanes specifically designed for cargo bikes will be created.

With several environmental certifications and labels targeted, this site reflects our commitment to providing a space that meets the expectations of engaged stakeholders and actively contributes to a sustainable living environment for all.

Spaces that enable
**EXTRAORDINARY
THINGS TO HAPPEN**

Our corporate social and environmental responsibility program, called *Responsible SEGRO*, demonstrates how our environmental and social contributions are integrated into our business strategy and are fundamental to the way we create the space that enables extraordinary things to happen – whether through the spaces we develop for our customers or by fostering the growth of our employees, communities, and the environments surrounding our warehouses.

As part of this strategy, we have three key priorities.

For more information:
segro.com/responsible-segro

**CHAMPIONING
LOW-CARBON GROWTH**

SEGRO recognises that the world is facing a climate emergency, and we are committed to playing our part in tackling climate change, by limiting global temperature rise to below 1.5°C, while continuing to drive the growth of our business and the economy as a whole.

**INVESTING IN OUR LOCAL
COMMUNITIES AND
ENVIRONMENTS**

SEGRO is an integral part of the communities in which it operates, and we are committed to contributing to their long-term vitality.

NURTURING TALENT

SEGRO employees are essential and inseparable from its success, and we are committed to attracting and retaining a diverse pool of talented individuals in our business.

IMPACT CHARTER

*A positive impact on the neighbourhood
and businesses*

As part of our *Responsible SEGRO* approach, we are investing in everyone's future prosperity by creating training and employment opportunities, providing continuous support and enhancing the spaces around our sites.

The IMPACT Charter, a key pillar of SEGRO's CSR program in France, aims to contribute to the sustainable development of the regions where we operate.

A PROGRAM DEPLOYED AT A REGIONAL SCALE

Launched in 2022 at SEGRO Parc des Petits Carreaux in Bonneuil-sur-Marne (94), this initiative has gradually been rolled out across the Île-de-France region, evolving from a local initiative to a regional program.

In 2024, the IMPACT Charter was introduced in the Auvergne-Rhône-Alpes and Provence-Alpes-Côte d'Azur regions.

A SCHEME THAT ENGAGES OUR ECOSYSTEM

The IMPACT Charter aims to bring together public stakeholders (local authorities, educational institutions, etc.), non-profit organisations, and private companies (our tenant clients, as well as our advisors and partners, including lawyers, architects, construction companies, and landscaping firms, among others).

Together, these various stakeholders form IMP'Actor collectives around SEGRO sites to launch and sustain projects focused on three key areas:

- 1 Training, employment and professional inclusion, with a priority on vulnerable populations
- 2 Local economic development
- 3 Enhancing the local living environment

T ALENTS

Since 2021, SEGRO has been committed to working with Café Joyeux, a non-profit organisation that trains and employs people with mental and cognitive disabilities.

LOCAL IMPACT PROJECTS AT THE HEART OF SEGRO CENTRE PARIS LES Gobelins

In collaboration with Paris&Co, the innovation and economic development agency of Paris and its metropolitan area, SEGRO is launching a Community Centre, a 500 sqm space dedicated to organisations from the Social and Solidarity Economy (SSE) within the SEGRO Centre Paris Les Gobelins.

This space will host initiatives that have a social and environmental impact, such as a bicycle repair workshop, community catering or a recycling centre.

This project aims to play a role in revitalising the neighbourhood, supporting urban transformation and providing valuable services to residents, as part of our CSR policy, *Responsible SEGRO*, dedicated to sustainable development and local engagement.

ABOUT SEGRO

SEGRO is a leading owner, manager and developer of modern and sustainable warehouses and business parks in France and across Europe.

Our buildings are located in urban areas and close to major transport routes on the French axis linking Paris, Lyon, Marseille and Lille and in seven other European countries.

For over 100 years – 50 years in France – we have been providing our customers with large and modern warehouses, urban distribution centres closer to city centres, and cutting-edge business parks that allow our customers to grow and thrive. We cover every step in the supply chain.

SEGRO is a responsible and committed company, dedicated to making a positive impact on society and the environment.

Our *Responsible SEGRO* social responsibility program is a testament to this. It is organized around three strategic priorities that cover the areas where we believe we can make the greatest contribution, due to our activities and our presence:

- Championing low-carbon growth
- Investing in our local communities and environments
- Nurturing talent
